Disclaimer:
 Clover Health applies The Center for Medicare and Medicaid Services (CMS) criteria and guidelines, National Coverage Determinations (NCD), Local Coverage Determinations (LCD), Clover Policies, and MCG for determining medical necessity. Clover Policies are intended to provide a standard guideline but are not used to preempt providers' judgment in rendering services. Providers are expected to provide care based on best practices and use their medical judgment for appropriate care.

Description:
 Clover Health allows members to receive annual preventative wellness visits with no cost share required. This policy describes the codes permitted to be billed, as well as frequency limitations for the services provided.

- Definitions:**
- Initial Preventive Physical Exam (IPPE)
 - The IPPE, known as the “Welcome to Medicare” preventive visit, promotes good health through disease prevention and detection.
 - Annual Wellness Visit (AWV)
 - Visit to develop or update a Personalized Prevention Plan (PPP) and perform a Health Risk Assessment (HRA)
 - Routine Physical Exam
 - Non-covered by Medicare, covered by Clover Health. An exam performed without relationship to treatment or diagnosis for a specific illness, symptom,

complaint, or injury.

Policy:

Clover Health reimburses providers for one Initial Preventive Physical Exam (IPPE) per member lifetime. In order to be covered, the IPPE must be billed within 12 months of a member becoming active with Medicare.

Following the initial IPPE timeframe, members are permitted one Annual Wellness Visit (AWV) per rolling 12 months. During the wellness visit, providers may also include advanced care planning, as long as the medical records support that the advanced care planning was provided in addition to the wellness visit. No copay or coinsurance will be applied to the advanced care planning services if it was provided on the same day as the wellness visit.

In addition to the CMS covered wellness codes, Clover Health also permits members to receive one annual physical exam per rolling 12 months. This exam may be billed separately from a wellness exam. Since it is non-covered by Medicare, Clover Health has established a reasonable payment rate for these services. Contract rates may be applied to all of these services.
